Absolute Security & Allied Services Pvt Ltd. have been providing **Security Services** since 1986 in New Delhi, Gurgaon, Noida & NCR and today provide it in 16 north and central Indian states. Over the years, we have nearly perfected the process of recruiting, training and managing this segment of relatively not so skilled manpower at reasonable cost.

Best Security services in Delhi

Security Guards Training

We train our **security guards** for 6 days. Our training rooms are equipped with state of the art security and training equipment e.g. metal detectors, fire extinguishers, and LCD projectors. Our training has been converted into powerpoint format and is delivered through LCD projector. Each and every **security guard** has to pass a certification exam end of the training.

Application Based Monitoring System

For continuous security guard tracking, we have an app based tracking system where the guard scans the QR code in specific intervals. One team dedicated towards this prepares a report of the same for any missing scan on daily basis. We can share this report with our client on a periodic basis.

Continuous Knowledge Updating of Security Personnel

Continuous knowledge updating of **security guard** is done through monthly newsletter given to each and every security guard every month.

Own Vehicles

We have our own vehicles extensively used for day and night checks.

Regular Client Feedback

Regular monthly feedback is taken from every client for each **security guard** and based on this feedback every security guard is given an incentive each month.

Regular Night Check

There are two dedicated night checking teams besides field officers and managers who conduct checks every night. Your post will likely be checked at least 4 times every month at night.

Audits

Monthly audits are done for all areas / routes by a team reporting directly to director and based on the audit performance incentives are given to field / route officers and managers. The team, audits turn out and maintenance of post registers.

Post-Duty Manuals

Post duty manuals are made for each and every post. They capture requirements specific to your post e.g. timings for switching on the pump. This helps when guards are replaced due to any reason.
